OSS Performance Demonstration Report

All systems are to be tested with permanent wiring and permanent power. This form is to be included with the final As-built submission.

Fill out the following boxes according to system type:
Gravity 1, 2, 3, 9 **Pump to Gravity** 1, 2, 3, 4, 9 **PD** 1,2,3,4,5,6,7, 8, 9
Mound 1, 2, 3, 4, 5, 6, 7, 8, 9 **Sand filter** 1,2,3,4,5,6,7,8,9,10,11,12,13
Sand filter to Mound 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11,12 ,13

1 System Type: Gravity PD Mound Sand Filter = SF/M, SF/PD, SF/Gravity Other specify ____________________

2 Permit Address ________________________________ Designer ____________________________
Installation Permit No. **H**________________________ Installer ____________________________
Parcel No. Date system tested/inspected ________________

3 Septic Tank: Size ____________________ Manufacturer __________________ Approval No. ___________
Screened Outlet Baffle ☐Yes ☐No Make and Model No. _______________________
Water tight Test Satisfactory ☐Yes ☐No

4 Pump Tank: Size ____________________ Manufacturer __________________ Approval No. _________
Pump Chamber gals/inch ______________ Pump make/model /HP ___________________ voltage ________
Water tight Test Satisfactory ☐ Yes ☐No

5 Pump System Performance:
Dose Volume (gallons) _____________ **Draw down per cycle (inches)** _________________________
Doses per Day ____________________ **Method:** Residual Head Squirt Height ____________________
Pump run time per cycle (min) GPM discharge

6 Timer:
Timed Dosing ☐Yes ☐No Control Panel make/model ______________________________
Time pump ON ______min.______sec. Time pump OFF _______________ specify time increments
Timed dosing to (circle one) PD, Mound, SF, other

7 Lateral Diameter _________ Check valves (manifold) ☐Yes ☐No Monitoring ports in place _______
Orifice Size _________ Flow control valves ☐Yes ☐No Lateral Clean-outs in place _____
Orifice Spacing _________ Anti-siphon device ☐Yes ☐No Gravelless chambers ☐Yes ☐No
Orifice Orientation: _____ Orifice shields ☐Yes ☐No Alarm location _______________
Manifold Diam. Manifold Length

8 System drains between cycles ☐Yes ☐No **Variation in orifice discharge rate over entire system < 15%** ☐ **Yes** ☐**No**
System meets performance standards on the design ☐Yes ☐No

Laterals	**1**	**2**	**3**	**4**	**5**	**6**	**7**	**8**
Lateral Length								
Orifice Spacing								
No. of Orifices								
Residual Head								

As the Installer of record I have verified all data in box #8 and it accurately represents the work that was performed at the site. Licensed Installers Signature _________________________________ Date________________

9 I have inspected the installed OSS and conducted a performance test in accordance with the current DOH design standards and this system has passed the performance test and As-built inspection. All information accurately represents what I observed at the site.
Designer/Engineer Signature ____ Date _______________
☐ I request final inspection from the Health Department

Note: failure to supply adequate information to evaluate system performance is grounds for rejecting the performance test and disapproving the installation.

All Sand Filters or Sand Filters to Mounds see page 2 **Tracking Number** ________________

Page 2 for Intermittent Sand Filters with a pressure distribution network or Sand filter to Mound

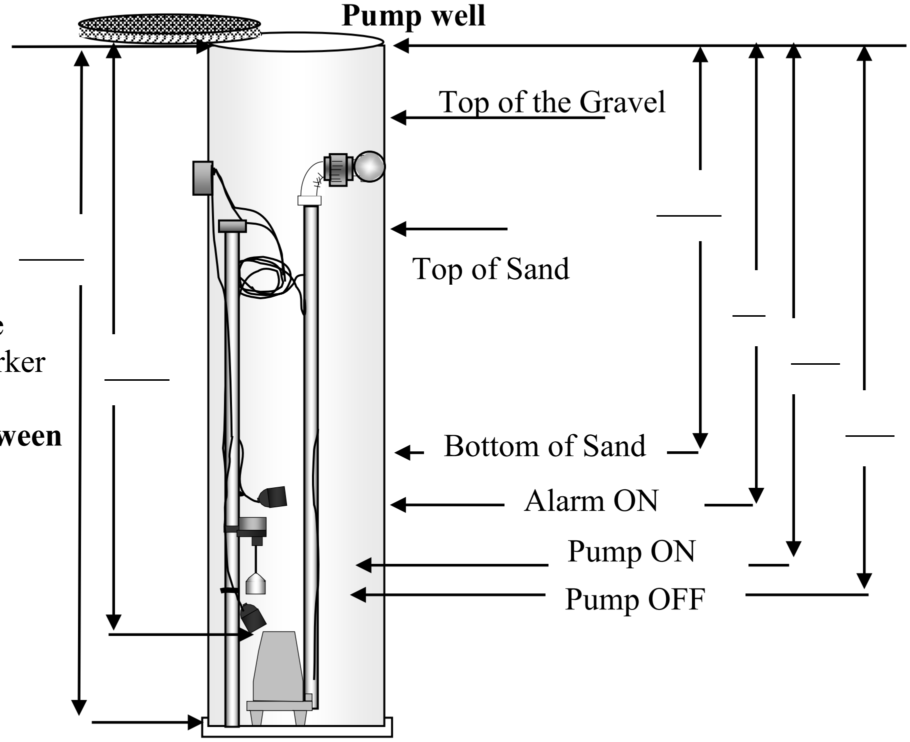
10

Note: all measurements taken from top of riser

Sand Filter Measurements

Mark a fixed position on the pumpwell (top of the gravel) Provide the measurement From this fixed mark to the Bottom of the sand layer ________________.
Clearly mark this measurement on the underside of the lid to the pumpwell with a permanent marker

Provide all measurements between Arrows as indicated



11

Lateral Diameter ________ Check valves (manifold) ☐Yes ☐No Monitoring ports in place ______

Orifice Size ________ Flow control valves ☐ Yes ☐ No Lateral Clean-outs in place ____

Orifice Spacing ________ Anti-siphon device ☐Yes ☐No Gravelless chambers _________

Orifice Orientation: _____ Orifice shields ☐ Yes ☐ No Alarm location _____________

Pump make/model ________________________

12

Laterals	1	2	3	4	5	6	7	8
Lateral Length								
Lateral Spacing								
No. of Orifices								
Residual Head								

System drains between cycles ☐ Yes ☐No Variation in lateral discharge rates over entire system between 15% ☐Yes ☐No System meets the performance standards approved on the design ☐Yes ☐No

As the installer of record I have verified all data in box #12 and it accurately represents the work that was performed at the site. Licensed Installers Signature ____________________________Date ________________

13

I have performance tested this system in accordance with the current Guidelines for use of Pressure Distribution Systems and this system has passed the performance test and As-built inspections. All information supplied accurately represents what was observed at the site.

Designer Signature ____ Date ________________________

Note: failure to supply adequate information to evaluate system performance is grounds for rejecting the performance test and disapproving the installation.

☐ Request for Final inspection from Health Department

HD Date/Time Received ____

Performance Demonstration Report Form
Page 3 for Subsurface Drip Systems

Pack bed/ drip ___ Sandfilter/ drip ______ ATU/drip _______Other _________________________

PRODUCT TYPE

Geoflow _______ **Netafim** ________ **Other** ________
All dripline components are from the same manufacturer and are compatible with the product line Used. Verified by Designer/PE __________ Master Installer ____________

INSTALLATION

Number of Driplines is ______________ Total lineal feet is ___________
Dripline Spacing (2-ft min) is _________ Orifice Spacing is ____________
Dripline Depth (inches) is ___________ Number of zones _____________
Cover Depth (inches) is ___________

COMPONENTS

Air/ Vacuum Relief Valves: #_________ Diameter __________
Flow Meter: ☐ _________
Flush Valves: Automated☐_________ Manual ☐________ or Continuous ☐_________
Chemical Injector Port ☐__________
Pressure gauge ☐ _________
Filter: ☐ __________ Type/size _______________

DOSING

Number of doses/ day _________ Time pump ON _______/ Time pump OFF ________
Pump Make and Model ____
Control Panel Make/ Model ____

TESTING/ INSPECTION

Initial operating pressure of system (PSI) ___________
Flush line pressure (PSI) ___________
Initial measured system flow rate (GPM) ___________
Total Flow for system (GPM) ___________
System Water Tight: YES ____ NO ______

As the installer of record I have verified all data in above and it accurately represents the work that was performed at the site.

Licensed Installers Signature ________________________________Date _____________

I have performance tested this system in accordance with the current Guideline for use of SSDS and this system has passed the performance test and As-built inspections. All information supplied accurately represents what was observed at the site.

Designer Signature ____Date ______________
